

ARCHITECTURAL
FRAMING
SYSTEMS

A photograph of a white-framed hinged glass door set in a wooden wall. The door is partially open, revealing a wooden deck and a building interior. The door has a silver handle and hinges. The text "LIFESTYLE™ HINGED DOOR 150 System" is overlaid in the bottom right corner.

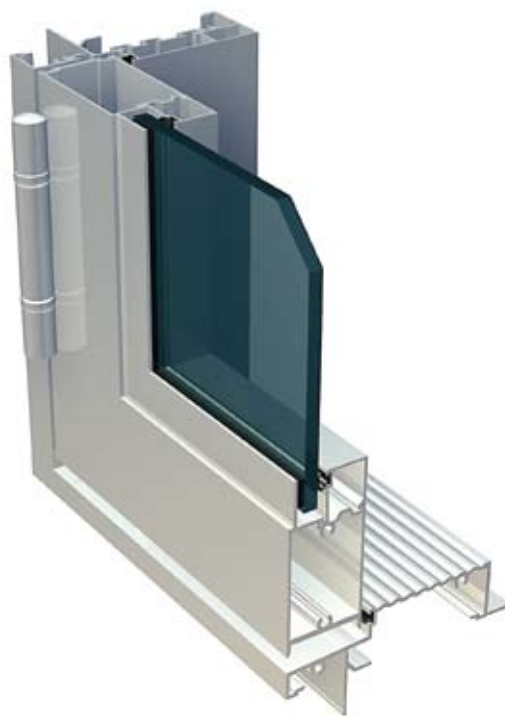

LIFESTYLE™
HINGED DOOR
150 System

AFFORDABLE QUALITY:

Lidco's Lifestyle™ Hinged Door is ideally suited for all residential applications, specifically where improved thermal efficiency is required. The doors can be glazed with safety glass as well as double glazing providing an affordable quality hinged door that meets current architectural trends and performance requirements.

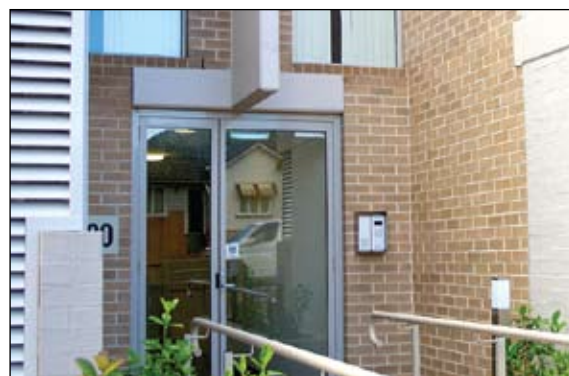

The system incorporates the latest in door weathering design and has durable sash seals to protect your home from dust and moisture. The perimeter frame will also accept insect and safety screens. The Lifestyle system may be manufactured in various framing combinations including double doors with fixed side and high light options.

The system accepts a range of glazing from 4mm safety glass to 22mm double glazed units without the need of glazing adaptors.

FEATURES:

- Accepts glass thickness from 4mm–10.38mm single glazed and 14mm–22mm double glazed
- Self draining sill
- Choice of locking options
- Subhead and subsill options
- 100mm frame size – able to couple with all Lidco 100mm frame systems
- Available in various powder coat and anodised finishes

With over 60 years experience in the architectural building industry, Lidco is one of Australia's market leaders in the development, commercialisation and distribution of architectural framing systems.
